

Purpose:

This document defines the social networking and social media policy for Tulsa City Council staff in addition to City policies. To address the fast-changing landscape of the Internet and the way residents communicate and obtain information online, the City Council may consider using social media tools to reach a broader audience. Council Communications staff encourages the use of social media to further the goals of the City Council and its priorities where appropriate.

City Council uses social media to further the goals of the Council and its priorities with an emphasis on brand integrity in its messages. The City Council's goals in using social media are to:

- Engage citizens at their convenience
- Make it easy for citizens to participate in their local government
- Create a two-way dialogue with the community
- Provide the Council with the ability to communicate effectively

The City Council employs Communications Officers that have overriding interest and responsibility for deciding what is "spoken" on behalf of the Council on social media sites. This policy establishes guidelines for the staff use of social media.

Personal vs. Professional Guidelines- Council Staff**Personal Use**

City Council staff may use social media for personal use and Council staff should comply with City of Tulsa Human Resources' policies, the City charter, Council rules and amendments regarding internet, email, personal computer usage, and prohibited activities. Staff should be mindful as to how their position could be perceived by the public.

Council staff should also comply with City of Tulsa Human Resources' policies regarding their ability to participate in political activities. No Council staff member should cause or permit political activities to detract from or interfere with their ability to perform their job duties. Council staff should not disclose confidential information received in their staff capacity that is not generally known to the public.

Professional Use

All official Council-related communication through social media and social networking outlets must remain professional in nature and must always be conducted in accordance with the Council's communications policy, practices, and expectations. Council staff should be mindful of inappropriate usage of official Council social media and social networking sites, such as participating in political activities, conducting private commercial transactions, or engaging in private business activities. If social media and social networking sites are used for official

Council business, the entire Council site, regardless of any personal views, is subject to best practices guidelines and standards.

Only individuals authorized by the Council Administrator, Deputy Council Administrator, or Council Communications Officers may publish content to a Council website or Council social computing technologies. The City Council has established means to communicate “official” information. This communication comes from those designated to speak publicly on behalf of the Council. Only these authorized persons, or their designee, may publish content to an official Council website or social media or social networking site.
